

Daily Homework Assignments All Chapters

These problems are selected from the problems at the back of each section in the chapter. Answers to the odd-numbered problems are included in an appendix to the textbook, so you can check your work on some of the problems listed. If you cannot answer an even-numbered problem, look at similar examples in the text and in your notes from class, and try similar odd-numbered problems that you can check. On those problems which do have answers given, the given answers are terse and lack explanations – you should expand on the answers given. Also, most sections include a few “Review Problems” which may help you get started.
